

Dear Valued Customer –

As the situation surrounding COVID–19 continues to evolve on a daily basis and impact human health and markets around the world, we'd like to share with you how our business is operating.

For your safety and the safety of our employees, at the close of business on March 17th, we will discontinue the ability for customers to place pick–up orders.

As you may know, all of our apparel is hand–made to order. In order to offset costs to our customers, we have been traveling to our vendors to pick up material and apparel needed to process your orders. Since the no contact order for COVID–19 has been put in place for the state of Georgia, all of our vendors are requiring that products are being shipped instead of our usual pick up schedules. With that, the price of shipping to our customers has to increase. We ask that you bare with us during this time as we do not anticipate this to continue long term but there is no end date at the moment. We value you as a customer and we thank you for continuing to shop at Trendin' Apparel, LLC.

Key Points:

- March 17th is the last day to place pick–up orders from Trendin Apparel, LLC.
- March 18th all orders from the website will be shipped via USPS flat–rate shipping for \$15.95.
- Trendin Apparel online store remains open and fully functional.
 - All orders placed will be shipped to Customers (vs. being picked up by Customers)

To stay up to date on important Trendin Apparel information, please visit our website for updates.

Thank you, as always, for your business and support and we apologize for any inconvenience. Together we will work through this challenging time.

Jason and Laketia
Owners–Trendin Apparel, LLC.
